

The proven gameplan for simplified website management

When running a **web hosting** or **digital agency**, you need to manage websites, secure them, keep them updated, register and renew domains, create backups, deploy apps - and do it all at scale, without drowning in admin.

Do these sound familiar?

⚙️ Too many tools, not enough time

Juggling dashboards, plugins, and scripts just to manage basic tasks.

💰 Rising software costs

Per-account pricing models, such as cPanel's, make growth expensive fast.

🕒 Lost billable hours

Routine tasks take time away from paid project work.

🔄 Slow client workflows

Feedback via email and calls = endless back and forth.

🛡️ Security risks

Outdated CMS plugins and weak admin policies can lead to vulnerabilities.

To be more successful with running websites you need a stack that simplifies management, cuts costs, improves security, and frees up your time for **real client work**.

That's why **Plesk**, **Sitejet**, and **Openprovider** make a powerful trio: an **all-in-one hosting, billing, and security stack for agencies and web hosters**

Why Plesk is your smarter choice

Feature	Plesk	cPanel
Unified admin + client interface	✅ Yes	❌ WHM/cPanel split
OS flexibility	✅ Linux & Windows	❌ Linux only
WordPress mass management	✅ Built-in WP Toolkit	✅ Later version, less native
Docker support	✅ Native integration	❌ Not supported
Modern UI	✅ Streamlined & intuitive	⚠️ Can feel crowded
Scalable pricing	✅ Unlimited domain option	❌ Account-based pricing

🔧 **Plesk gives agencies full control, native WP tools, and lower cost — without the licensing headaches.**

Plesk WP Toolkit: manage WordPress like a pro

🔗 Bulk update plugins, themes, and core installs

🛡️ Apply one-click security hardening to all sites

🏠 Create staging sites and safely push to production

⚙️ Sync plugin sets across multiple clients

🔄 Test changes through **Smart Updates** before applying them live

📦 Included for **free** with Web Pro and Web Host Plesk editions

Sitejet: the faster way to build websites

Agency benefits

- 🔗 Visual drag-and-drop site builder
- 📊 Project management dashboard
- ⚙️ Workflow automation
- 🏷️ White-label your brand

Client benefits

- 🔗 On-page feedback tool
- 🔗 Limited self-editing access
- 🔗 File upload & approval system
- 🔗 No training required

Why Openprovider + Plesk = your smartest move

- ✅ Up to 50% off on unlimited Plesk licenses
- ✅ Resell Plesk and set your own pricing
- ✅ WP Toolkit + Sitejet included
- ✅ No per-account fees
- ✅ Ideal for agencies of all sizes
- ✅ Plus: domain operations at cost price with Openprovider Membership.

Sign up for an **Openprovider Membership** to get the best pricing on Plesk and more.

Stop overpaying for tools that hold you back.

Start working with Plesk through Openprovider.
